Hello Fundraiser,

The JustSkydive.com fundraising platform, was developed by Skydive Jersey Ltd. as a tool for centralising fundraising for sponsored charity jumps local to the Channel Islands, with transparency and ease.

It's purpose is to provide a local and personalised platform exclusive to Skydive Jersey, making fundraising simple and fun, promoting campaign targets and competitive fundraising ! You can phone us and discuss your requirements, provide photos, organiser contact details and provide corporate colours, and logos for a more professional looking and localised campaign.

Working together we can tailor your online campaign details for individual or group fundraising, set your targets and stimulate fundraising competitiveness to promote maximum return, and exposure for the charity.

JustSkydive.com provided by Skydive Jersey, exists to aid and simplify fundraising, and is not operated as a business model to make a profit. However, costs are incurred for providing this service which are recouped by charging a transaction fee for each donation made.

We know that other fundraising platforms are available for charities, and respect that you have the freedom to choose your preferred method of collecting online donations. Some require payment of a monthly subscription for charities, and most charge transaction fees.

Skydive Jersey Ltd. does incur the following annual costs for providing this service,

- Card charges per transaction made
- Website Hosting
- Website Administration
- Domain name registration
- Administration of final reports
- Banking charges

The justskydive.com rate is fixed at 1.9% + 20p for each transaction.

Each donor accepts terms and conditions and has the option to add this fee on to the pledged amount, rather than have it deducted from the donation, at the time of paying, so the charity won't always notice transaction deductions.

Donations are held in a secure bank account until the end of the campaign when a bank transfer will be made to the event organiser within two weeks, amounting to the total donations less the transaction charges listed above, accompanied with a report of all campaign transactions and associated charges, listing individual fundraisers achievements, and campaign totals.
